

Accessing Online Databases From Off Campus

You don't have to be at Sowela in order to use the library's databases. If you'd like to access the library from home, simply follow these steps.

Go to the Library homepage

Go to **Databases By Vendor** or **Databases By Title**

Select the database that you'd like to access; this screen will appear

A screenshot of a library authentication form. It contains three input fields: a text box for 'user id number (or alt id)' with the value 'STUD000000XXXX', a text box for 'user PIN' with eight dots, and a dropdown menu for 'institution' with 'SOWELA Technical Community College' selected. Below the fields is an 'Authenticate' button. A black arrow points from the button to the dropdown menu.

Enter your
user id number (or alt id):

AND your user PIN:

AND select your institution:

then click on

It's important to select "Sowela Technical Community College" from the drop-down menu; Baton Rouge is selected by default.

Type in your **Student ID**—found on your Student ID Card—into the **User ID** field

Type your PIN—a unique five-digit code—into the **User PIN** field

Click on **Authenticate**. This will bring you to the appropriate database

Remember that the Sowela Library & Learning Resource Center is always available to help you!
