

Scholarly Formatting

Citation of sources is an important part of writing papers, because it allows you to show where you found your information. However, there are specific ways that your sources have to be cited.

APA STYLE

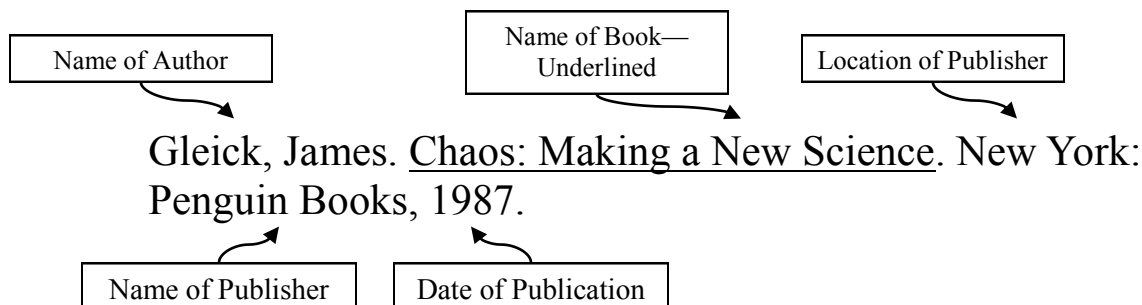

The American Psychological Association is one of the more popular ways of writing bibliographies, especially in the social sciences. For instance, journal articles are cited like so:

MLA STYLE

Written by the Modern Language Association of America, the MLA style is a popular formatting style for those writing papers within the arts and humanities disciplines. For instance, book citations are structured this way:
