

To all students other than high school dual enrollment and STEPS students:

Students enrolled in courses that did not move to an online delivery format, and/or those having hands-on components that must be completed in a face-to-face instructional setting (lab or clinical setting), will receive a grade of incomplete or “I” at the end of the spring 2020 semester. Students receiving an “I” will be given the opportunity to complete coursework with no additional tuition or fees. Course instructors will notify students of specific assignments, tasks, and tests as well as the timeline for completing coursework. All coursework must be completed no later than Tuesday, December 1, 2020, or the grade of “I” will convert to a grade of “F”. **Students opting not to receive the grade of “I” should withdraw from their full-semester paused courses no later than Friday, May 1, 2020.**
