

Appendix L: Individualized Student Flight Plan

**INDIVIDUALIZED STUDENT
FLIGHT PLAN**

Student Name:

Student ID:

As a student at SOWELA Technical Community College, you are responsible for completing all coursework needed to graduate in your program of study. Your academic advisor has helped you create a schedule of courses for the first semester. As you move forward, you need to develop long-term plan that will help you arrive at your destination ... graduation.

Locate your program of study in the College Catalog available on the SOWELA website. Observe how courses are often arranged in a semester-by-semester format. Note that this format is designed for a full-time student but you may be part-time. Also, notice that the program of study does not identify any developmental coursework which many students need before they can take particular college-level courses.

Consider your circumstances and adjust the catalog format accordingly to accommodate your specific needs. Also, be mindful of courses that may have pre-requisites. This information is located in the Course Descriptions near the end of the Catalog. Using this form, draft a semester-by-semester Individualized Student Flight Plan for arriving at graduation. Bring your flight plan to the second meeting with your academic advisor or scan it prior to your session.
