

## **Standard Desktop Configuration**

Desktop computers will be Dell-branded and purchased through state contract. Exact hardware may vary, as parts are regularly changed by the vendor, though the configuration below is a fair guideline of what will be available. Any major changes will be reflected in an updated configuration.

- Intel i5 processor
- 8 GB RAM
- 500 GB hard drive
- Wired network connection
- HDMI & Display Port video connections
- Wired keyboard
- Wired mouse
- DVD +/-RW (rewritable) disk drive
- Latest supported Windows release
- (optional) 20" monitor

*If you do not purchase a new monitor, or wish to use multiple monitors, please consult with IT, as we may need to purchase adapters, or other hardware, to make the necessary connections.*

## **Standard Laptop Configuration**

Laptop computers will be Dell-branded and purchased through state contract. Exact hardware may vary, as parts are regularly changed by the vendor, though the configuration below is a fair guideline of what will be available. Any major changes will be reflected in an updated configuration.

- Intel i5 processor
- 8 GB RAM
- 500 GB hard drive
- 15.6" Monitor
- Wired network adapter
- Wireless network adapter
- DVD +/-RW (rewritable) disk drive
- Topload carrying case
- Latest supported Windows release

## **Standard Surface Configuration**
