2. Feedback Questions

2.2) What aspects of the training could be improved?

None, I think the teachers met every goal of the ~~training~~ training.

It was thorough and the instructors were very knowledgeable, maybe they could add more information to teach the students.

Not a thing

NONE really, I'm enjoying Sowela teaching and the capital one program, and looking forward into having a job to be a millwright in the plants and etc.

NONE of that I can see, everything that we addressed as a class, we learned as a class

Better technology introduced into the class.

more organization

The training had good views but I would have like to see more
I was satisfied.

NONE

The training was fine the way it was.

The class was somewhat dry. Maybe revamp the learning material a little and it would be easier to sit through.

Really nothing the teachers were very specific and described everything with great teaching skills, had everyone join in and had fun with it excited to start school.

2.3) Please provide any other comments regarding this training

I believe all the training requirements of the program were very spot on. The ~~teachers~~ teachers went into very many details for ~~everyone~~ everyone to better understand and learn everything very well.

I enjoyed the training and would do it again!

Good

I really like sowela, the instructors really know there stuff and is passing it down to the students for a better future.

the instructors were informative and direct to the point at hand.

N/A

I've enjoyed this training and believe that it will empower me. The instructors were engaging and seemed to care.

Very informative instructors. Enjoyed class participation & instructor's comments
thoroughly

The job readiness training was very beneficial.
Lots of important information was given.

Give them a raise!
